INTRODUCTION:

The thirst for learning, upgrading technical skills and applying the concepts in real life environment at a fast pace is what the industry demands from IT professionals today. However busy work schedules, far-flung locations, unavailability of convenient time-slots pose as major barriers when it comes to applying the concepts into realism. And hence the need to look out for alternative means of implementation in the form of ladder approach.

The above truly pose as constraints especially for our students too! With their busy schedules, it is indeed difficult for our students to keep up with the genuine and constant need for integrated application which can be seen live especially so in the field of IT education where technology can change on the spur of a moment. Well, technology does come to our rescue at such times!!

Keeping the above in mind and in tune with our constant endeavour to use Technology in our training model, we at Aptech have thought of revolutionizing the way our students learn and implement the concepts using tools themselves by providing a *live and* synchronous Eproject learning environment

DEFINITION OF THE PROBLEM:

Dental or oral health is concerned with your teeth, gums and mouth. The goal is to prevent complications such as tooth decay (cavities) and gum disease and to maintain the overall health of your mouth. Hence to increase the awareness and provide all information about dental care, me and my team has created this website BELVILLE DENTAL so that people can easily approach to their desire need Related to dental health

A healthy mouth, free of infections, injuries and other problems with teeth and gums, is important in maintaining your overall health. Although a different set of medical professionals focuses on dental health, they are still part of your regular health care team.

Disease and other conditions can affect your dental health and dental problems can affect other parts of your body. Failing to properly care for your oral health may lead to other health problems.

You can help prevent or minimize many oral health problems by regular preventive steps (brushing, flossing and so on) and regular visits to dental health professionals.

REQUIRMNET ANALYSIS:

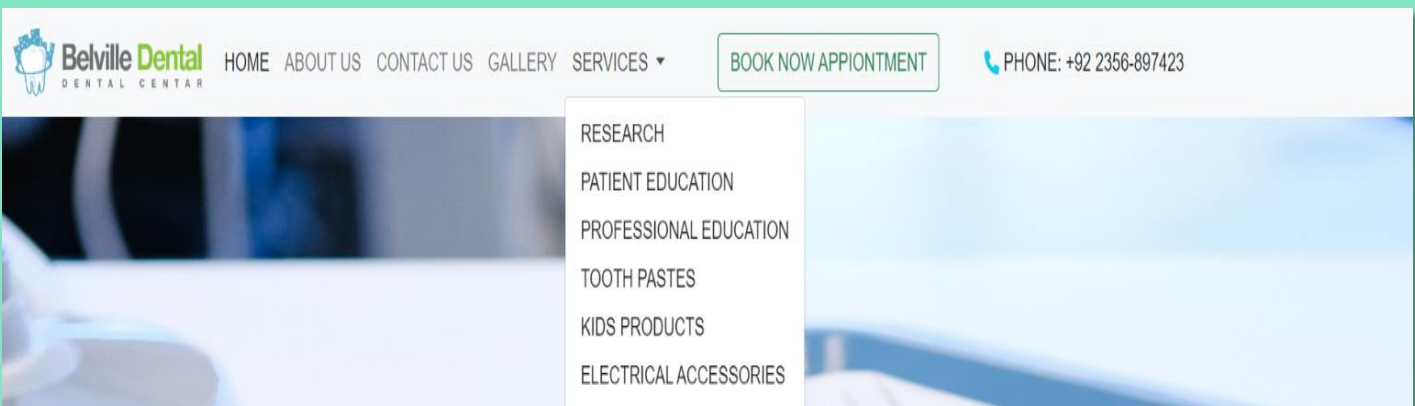

The Web site is to be created based on the following requirements.

1. The Top of the Page should be presented with a suitable logo and related images.
2. The site must contain the links to navigate through various options. Link titles mentioned below-
 - a. Professional education: This mainly includes the education assistance for students and practitioners. This can have further tabs/filters like finding related courses, help documents, faculty resources, student resources, case studies etc.
 - b. Patient education: This should include general and necessary information for the patients suffering from any of the oral/dental issues.
 - c. Research: This should include the latest research in the field. Necessary documents, videos etc. (media library) is expected here.
 - d. Products: As the name indicates it should include all the related products. Here filter should be available based on various types of products as tooth pastes , brushes, special products for kids, electrical accessories etc.
3. User should be allowed to enter rating for the products displayed in the website.
4. Site map, Gallery, about us, Queries link, Contact us link must be added.
5. About Us and Contact Us: This menu option should display Email id, address, and contact number of the organization who is developing the system.

CUSTOMER REVIEWS

CLIENT SATISFIED AND REVIEW

Shruti Parmar (USA) ★★★★★

Dr. Brijesh is expertise in dental, I had done my 3M lara crown treatment from him and it was awesome. His work is too clean perfect and never painful. The best dental care I have ever experienced! Professional, courteous, and friendly staff made me feel like family... would highly recommend to anyone!!!

4.1 average based on 254 reviews.

Messi (England) ★★★★★

Great office located directly in downtown (CN). The front desk staff makes you feel right at home immediately when you walk in the door. Everything was on time and it was an extremely professionally run office. A fantastic experience that is super easy for anyone that works downtown.

4.1 average based on 254 reviews.

Suraj Kumar (India) ★★★★★

This is a great place to go take care of your teeth. The team was very professional examining and providing with solutions by priority. I had to do periodontal root cleaning and (DN) did a great job. I felt that I was in good hands. All the people here were very gentle and kind to me. They explained very well what was going on. Thanks to (DN)!

4.5 average based on 744 reviews.
